# SENECA LAKE

is so much more than the spectacular rolling hills and lush vineyards that frame its glittering blue waters. The exceptional wineries that surround this uniquely formed landscape sit amid an ideal cool-climate grape growing region.

Created by the immense Wisconsin Glaciation during the last Ice Age, this remarkable geological formation allows our Wine Trail members to grow delicate vinifera grapes like Riesling, Chardonnay, Cabernet Franc, and Pinot Noir, alongside hybrid and native varietals.

The end result is a wide array of varieties and styles of wine made primarily from grapes harvested within the federally recognized Seneca Lake American Viticultural Area (AVA). With so many choices, we guarantee you'll find a wine that's perfect for you.

We raise our glass to superb wines and a sublime visitor experience.

## Member WINERIES

To help make it easier to find our member wineries, we have included the miles from one winery to the next, starting with **Belhurst Estate Winery** and going south, around the lake and back up the east side of the lake, counterclockwise. For example, it is approximately 6.9 miles from **White Springs Winery** to **Fox Run Vineyards**.

Reservations for groups of 12 or more.

"A good wine is a wine YOU like." In the heart of the Finger Lakes, join us for an experience of fermented beverages. Dry to sweet, red to white, vinifera to native, grape and fruit wine to Mead and Hard Ciders and a lot in between! "Find your wine halfway up Seneca Lakes west side".

**SINCE OUR FOUNDING IN 1986**, our member wineries have practiced a spirit of unsurpassed cooperation. The Finger Lakes has evolved into a world-renowned wine production region, rivaling those in California and Europe. In addition to our dedication to creating first-class wines suitable for every palate, member wineries of the Seneca Lake Wine Trail are committed to enhancing the region's economy and quality of life through a variety of enjoyable, educational, trail-wide events and year-round programs. We invite you to explore and experience our beauty, our history, our family of growers, and our wines.

# THE Fruitful History BEHIND THE SENECA LAKE WINE TRAIL

Seneca Lake is the largest of the glacial Finger Lakes and is also the deepest lake that is contained entirely within the state. It is this vast volume of water that contributes to our terroir which is ideal for growing grapes, given the lake helps blunt extreme low and high, temperatures year-round.

of the Erie Canal. Backyard fruit trees and arbors quickly grew into commercial orchards and vineyards.

In 1866, the western shores of Seneca Lake became home to its first winery, the Seneca Lake Grape Wine Company. The winery planted 100 acres of grapes. At the time, it was the largest vineyard in the state. By 1869 they were producing 14,000 gallons of Seneca Lake's first commercial wine.

Since that time, Seneca Lake has become a popular winery and grape growing destination in the Finger Lakes Region as well as the Eastern United States.

In 1886, the Seneca Lake Wine Trail was formed to help better market member wineries as a consolidated destination, pooling their resources and creating various wine and food pairing events, among other functions, to help introduce more people to our excellent wines and wineries.

Today, the Seneca Lake Wine Trail, in the heart of the Finger Lakes Region of New York State, is one of the largest cohesive wine trails in North America. Our member wineries pride themselves on

finest wines, visitors to our region should also appreciate the member wineries' commitment to the appellation. Over 60% of the wine sold in each of our members' tasting rooms is

Women sorting Seneca Lake grapes, pre-Prohibition

The Iroquois were the first to utilize the microclimates created by the lake's varying water temperatures. The Iroquois' fruit crops flourished. Later, European settlers planted only what they needed to survive or use for local barter, until the opening

both the diversity of wines they carefully make, as well as the many different styles of tasting rooms positioned all around Seneca Lake.

While our member wineries are excellent, award-winning producers of some of the world's

derived from fruit harvested within the federally recognized Seneca Lake viticultural area: meaning that our wineries create wine that captures and reflects our unique terroir, rather than using juice purchased from other grape growing regions. Our wines are grown here. Made here.

SENECA LAKE HAS BECOME A POPULAR WINERY AND GRAPE GROWING DESTINATION IN THE FINGER LAKES REGION AS WELL AS THE EASTERN UNITED STATES.

Timeline information generously provided by the Schuyler County Historical Society and the Yates County Historical Society.
